

“Moscow on the Cahaba”

Chapter II Part IV

Boris, FIKO & Darth Vader

Segment “B”

“Standardized Audience Formatting” (SAF)

For this “Segment” of “Boris, Fiko & Darth Vader”, SAF will, as usual, permit the visual audience to accept the challenge to give text, mere words on a paper, audible inflections (Boris' accent), painting each scene with backdrops and props - i.e. “Sustainable Transportation Device” (STD) – bicycle - required to complete today's imagery while the “Competent and Assertive Announcer” (CAA) stands at the microphone ready to announce today's installment for the pleasure of - the listening audience.

CAA:

In this “epic episode” (ee) of “Moscow on the Cahaba”, Chapter II, Part IV, Segment “B,” Boris, “Supreme Soviet Commissar” (SSC), “Aspiring Director of Code Enforcement” (ADCE) for Shelby County, Alabama, composes yet another letter to Natasha, his geopolitical flame of years gone by.

Boris:

Natasha, the CAA is making inferences in today's “Epic Episode” (EE) (notice the CAA belittles Boris's station with lower case ees) and asserts that your affections dim with distance and time. Boris has, of course, recognized the inference as a “Cheap Capitalist Half Truth” (CCHT) designed to drive the wedge of rumor into our loving relationship. Boris will speak no more of this CCHT, although a letter to Boris from His little Poopice would be nice.

Poopice, due to time restraints and a shortage of paper resulting from “Sustainable Economic Requirements” (SERs), Boris's last communication explaining the symbols that adorn His old friend and companion Darth Vader's Staff Car was cut short.

As you well know, Natasha, symbolism is a tool utilized to convey enlightenment - the highest cognitive order of socialism. The photograph, which Boris hopes you will share with your influential friends and acquaintances, symbolizes the unspoken concept of diversity and amalgamation. “Diversity” is, of course, Poopice, a “Socialist Multitasking Word” (SMW) which has stood the test of time. “Diversity” implies for today's society that, with the inclusion of differences, cultures, ethical standards, religious creeds, sexual deviations, age, and etc., we have somehow become one culture, all of which makes just as much sense as Shelby County's “Dark Sky Lighting Program¹” - it is an oxymoron. You know, Poopice, it's like “military intelligence”. After all, Poopice, the military can be no more intelligent than a lighted sky can remain dark. DA!

Facilitated Diversity

Natasha, a facilitator² is one who is trained to move a group of people from their current value system to a totally different system. He is successful when he can say to his subject group - “We are one because of our diversity” - and the subject group responds positively, i.e. “Amen, brother, we are one”, or no response at all which is the ultimate gauge of success, for it signifies “apathy”. Poopice, these two responses signal to the facilitator that the group is ready for the next transitional step. The “amen brothers” represent 100% buy-ins, while the “apathetic crowd” wouldn't lift a finger one way or the other – fence-sitters of the highest degree! Poopice, a representative likeness of this category may be seen on the following page.

Poopice, “amalgamation,” the art of efficiently and effectively blending things together, is represented by the “Fender Flag” mounted on the front of Darth's Staff Car. In this case, it should be expected that the blending together of three different cultures, Mexico, Canada and the United States would produce a cultural backlash. The artistry lies in the ability of the leadership of the dominant culture to minimize the cultural backlash, while the amalgamation occurs. Here, the current leadership of the United States shines with exceptional ability, for they have:

- allowed the borders to remain open and accessible to individuals who would cross it in defiance of national laws,
- unlawfully imprisoned border agents charged with the responsibility of securing the borders of the United States,³
- hired individuals⁴ for positions in the U.S. federal government from the ranks of the proponents of the merger of the three “nation-states”, Canada, Mexico and the United States,⁵ and

- floated trial balloons about the coming amalgamated currency – the Amero⁶

Poopice, enough of the menial details of the ongoing amalgamation. Boris is so excited to tell you about Darth's new "Sustainable Development Implementation Tool" (SDIT) - FIKO - "Federal Implementation K-9 Officer". You can see him patiently waiting in the front seat of Darth's Staff Car. The FIKO program is the result of “Community Development Block Grant”(CDBG). It all began*****

The “Observant Technician” (OT), always mindful of the ever-present constraints imposed by time, throws a series of switches whereupon the audience, mesmerized by Boris' “Commissar Training Techniques” (CTT), no longer hear the “Famous Socialist Facilitator” (FSF). With precision clockwork, the CAA steps to his microphone and says in typical “Professional Deep Tone Speaking Voice” (PDTSV):

"Unfortunately ladies and gentlemen, due to the expiration of our allotted time for this “exciting epic episode” (eee) of “Moscow on the Cahaba”, Comrade Boris' explanation of Darth's trusted companion, FIKO, must be limited. Tune in again next time, when Comrade Boris might possibly continue his explanation of this energizing new program".

1. Shelby County Comprehensive Plan: “Promote dark sky lighting”, Section II-7 – II-10 and II-29
2. Graduates from the “facilitator course” at the University of North Carolina at Chapel Hill "will focus on the social and cultural aspects of communities that are relevant for sustainable development facilitators. Facilitators are teachers, trainers and organizers who serve as "cultivators" and "midwives" for community change. They may be social workers, planners, administrators, public health workers or educators.” Changing society - "...students will analyze their own strengths for this work and the strengths of a community in which they plan to develop a real or hypothetical sustainable development project. Near the end of the semester students will present a participatory plan for engaging with the community for sustainable development work." <http://ssw.unc.edu/syllabi/sp2000/238gamble.htm>
3. Ignacio "Nacho" Ramos is a former United States Border Patrol Agent, who shot an unarmed illegal alien and drug smuggler on the United States–Mexico border. He was convicted of causing serious bodily injury, assault with a deadly weapon, discharge of a firearm in relation to a crime of violence, and a civil rights violation receiving an 11 year and one day prison sentence. Fellow agent Jose Compean was sentenced to 12 years. http://en.wikipedia.org/wiki/Ignacio_Ramos
4. “Washington D.C. - The National Council of La Raza (NCLR) expressed its strong support for President George W. Bush's nomination of Alex Acosta to be the new Assistant Attorney General for Civil Rights in the Department of Justice.” “Mr. Acosta has proven himself to be a bridge-builder, not only with the Latino community but with other ethnic and racial groups, said Raul Yzaguirre, NCLR President.” <http://www.nclr.org/content/news/detail/2357>
